Pant Size▼

Shoe Size▼

Next

User must select at least one brand

when user selects brand the kiss icon must appear over the brand icon. to unselect user must click the brand again.

OP Logo

Up to \$\$\$\$

User must enter what they would pay up to

user must pull the lever to start

If user selects sale then Sale Icon must show for a few seconds

one click is kissed
2 click is sale

When you kiss the image must fade away

Question
How would you come up with a way to share the outfit or item

If user selects then the whole outfit in that column.
Will need some sort of animation showing this.

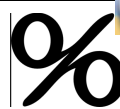

Animation showing that the user has saved in the kiss and sale history

A mobile application interface for a settings page. At the top is a status bar with a notch. Below it is a header bar labeled "Settings". The main content area contains several form elements: two dropdown menus (one with "USA" and one with "21"), three text input fields (labeled "First Name", "Last Name", and "Email"), and four more dropdown menus (labeled "Top Size", "Pants Size", "Dress/Skirt Size", and "Shoe Size"). At the bottom of the form is a blue button labeled "Go to Brands". The entire interface is framed by a light gray border with rounded corners and a home button at the bottom center.
